HIGHLIGHTS of Savannah!

Check the activities and you will find that CIEC 2014 is ONE BIG HIGHLIGHT! BUT you have to be there to experience it! So register right now and don't miss out!

Just a few things to note:

CIPD Thursday, 11:00 am – 12:30 pm session. With our own Paul Plotkowski - This is one for everybody!

Dean's Advisory Boards and Engineering Department Advisory Boards serve several purposes with a critical responsibility to engage corporate partners with the School of Engineering Staff to create partnerships in the pursuit of education. The economics today are causing the corporate outreach with universities to wane. This session will present an overview of the different roles and structures of Engineering Advisory Boards from several universities in their management of traditional academic programs, , cooperative education, and college level advisory boards. An open discussion including university and corporate partners will follow including opportunities for comments from the audience participants.

The Golf Outing - Tuesday February 4th, 2014

- CIEC Golf Outing
